2026

in partnership with

# Thank You to Our Sponsors

## Platinum Partners

We are a leading provider of construction, infrastructure and property developments in the UK, with a commitment to leaving lasting legacies in the communities we serve. Operating regionally, we focus on Essex and the surrounding counties for projects, pipeline and opportunities to support our local communities.

Chas Berger has been an established contractor since 1922, trusted by public and private sector organisations throughout London, Home Counties and the South East of England – and, more recently, throughout the Midlands. We deliver competent construction and refurbishment services alongside a valuable and reliable partnership with our clients.

## Gold Sponsors

Ingleton Wood provides single, multiple and full multidisciplinary services within the public and private sectors over the majority of industry disciplines.

Hill is one of the leading developers in London and the south east of England, delivering distinctive and award-winning new homes.

South East Consortium is a not-for-profit organisation specifically created to support the housing sector.

# Welcome

## Welcome to Essex Build Expo 2026

It is a privilege to welcome you to the Essex Build Expo 2026, our second annual event bringing together partners, innovators, educators, and leaders from across the construction industry with a shared ambition: to build a stronger, more sustainable, and opportunity-rich Essex.

Construction remains a cornerstone of our county's economy. Over 65,000 people work in the sector across Essex, Southend and Thurrock - demonstrating its significant impact on local prosperity. Jobs in construction are forecast to grow by 36.5% by 2030, far outpacing average sector growth. For every construction job created, up to one more is supported elsewhere; underlining the industry's wider economic importance.

Growth is being driven by major projects across the county, including the Lower Thames Crossing, new housing developments, garden communities and major transport and infrastructure upgrades. Renewable energy and sustainable construction initiatives are expanding too, with more on the horizon.

Central to this progress are the people who will shape the sector's future. The next generation of talent, including the students and early career professionals engaging with this Expo, will play a

vital role in ensuring businesses have the skills and capability needed in the years ahead.

Essex Build Expo brings together every part of the construction ecosystem - engineering, housing, digital technology, sustainability, skills, and business growth. The Expo showcases specialist industry zones, over 50 exhibitors, and a programme of panels and discussions covering design, innovation, materials, skills, and careers. It provides a platform for collaboration, fresh thinking, and practical insight for businesses, partners, and learners alike.

Essex is a county defined by ambition. We build not just structures, but communities, opportunities, and futures. This event reflects that vision by connecting those who design, deliver, and inspire the next chapter of our county's growth.

Thank you to all who have contributed to the development of this Expo and to everyone participating. Your commitment, expertise, and collaboration continue to drive Essex forward.

Wishing you an inspiring, productive, and impactful experience.

**Councillor Louise McKinlay**

The Essex Construction sector contributes **£7.8 billion** to the UK Economy

**13.5%**

More than one in every eight pounds in Essex's economy comes from construction.

Ranked second nationally, delivering the second highest construction output in the UK over the last 10 years.

Essex Build Expo 2026

ESSEX GROWTH AGENCY

Kier is a leading provider of infrastructure services, construction and property developments. We are proud to sponsor Essex Build Expo 2026.

Our purpose is to sustainably deliver infrastructure which is vital to the UK and we have a long track record of delivering important infrastructure for Essex County Council. With solid experience and expertise in projects, such as schools, it means a lot to our brilliant team to deliver high quality spaces and to serve the communities in which they live. We are committed to delivering for communities and leaving lasting legacies through our work.

 @Kier Construction

## 08:45 – 09:20

**Registrations and welcome drinks served in the Grand Pavillion Bar**

## 09:20 – 09:45

**Welcome address from Councillor McKinlay**

Welcome and reflections on the progress and priorities of Essex's construction sector, including collaboration, skills and inclusion, business opportunities, and the county's commitment to supporting a strong and diverse workforce.

## 09:45 – 09:55

**Construction Sector Keynote from Dr Victoria Hills – Chief Executive of CIOB**

Insights from the Chartered Institute of Building on national industry direction, professional standards and the priorities shaping the construction workforce, aligned with the themes of today's programme.

## 10:00 – 10:45

**Data Centres: Building the Future of Digital Infrastructure**

An introduction to the expanding data centre market, the specifications required to build these facilities, and the skills and capabilities Essex businesses need to position themselves for upcoming opportunities.

## 11:00 – 11:45

**Local Supply Chain: Building Connections and Opportunities in Essex**

A focused session exploring live and pipeline projects including NSIPs and how major contractors build their local supply chains. Panellists will outline routes onto frameworks, share upcoming opportunities and offer practical, actionable guidance to help businesses position themselves for future work.

## 12:00 – 12:45

**Sustainable Construction: Decarbonising the Sector**

A practical look at how construction businesses can reduce emissions, lead in sustainability and meet client expectations on low-carbon projects – with insights on Scope 2 and Scope 3 action and pathways to becoming a sector pioneer.

## 13:00 – 13:45

**Local Essex Opportunities: Unlocking Work at District and Town Level**

An energetic look at Essex's district-level opportunities – from regeneration to housing and retrofit – with practical insight from major housing and development groups on how businesses can access pipelines and secure local work.

## 14:00 – 14.15

**Closing remarks from Councillor Ball**

Procurement Routes, Training and Technical Support

# Work more confidently with the public sector

We help our customers to deliver better, safer, and greener places for people to live. Our procurement routes cover a range of works and services – and help connect suppliers to public sector organisations tendering for contracts.

Come find us in the exhibition hall to learn more about our opportunities covering decarbonisation, development and refurbishments.

Interested in learning to deliver better bids? We're running our popular Bid Better course in Colchester on 24 March. Speak to the team to learn more.

[www.southeastconsortium.org.uk](http://www.southeastconsortium.org.uk)

[info@southeastconsortium.org.uk](mailto:info@southeastconsortium.org.uk)

## Partnerships That Make Progress Possible

Hill is one of the leading developers in London and the South East of England, delivering distinctive, award-winning new homes.

Our partnership approach is rooted in trust, expertise and shared ambition. We work alongside landowners, housing associations and local authorities to unlock opportunities, deliver meaningful change and create thriving communities – time and again.

# Agenda

Growing your Business | Drawing Room

10:00 – 10:45

### Social Value: Delivering Meaningful Impact Beyond Traditional Approaches

This is a session that will get you thinking about unconscious bias, breaking down myths to employing inclusively and highlights the impact across business, supply chain, young people and how this applies to their learning pathway.

11:00 – 11:45

### Attraction, recruitment, retention and progression

A discussion on strengthening talent pipelines by improving attraction, recruitment and retention, widening access to under-represented groups and building stronger collaboration between industry and education.

12:00 – 12:45

### What It Takes to Grow, Compete and Win in Construction

A focused look at the steps construction SMEs can take to grow sustainably, strengthen commercial foundations and get ready for future work – including cashflow, compliance, frameworks and building strong client relationships.

13:00 – 13:45

### Building a Lasting Legacy: Creating the Future Construction Workforce

An insight into the Building a Lasting Legacy (BaLL) programme, featuring employers, educators and young people sharing their experience of building school partnerships, inspiring future talent and supporting long-term skills development.

# your local property and construction consultancy

Stand 50

Ingleton Wood

Solving global challenges one building at a time

## Are you looking for a multidisciplinary team for your next project?

Ingleton Wood partners with local authorities through a wide range of commissions, delivering trusted professional and construction consultancy services.

These include working directly for councils and alongside contractors on regional and national frameworks; adapting to each project's unique requirements.

Whether you need a fully integrated team, or a single specialist discipline, our experts collaborate to deliver the right solution, every time.

### Our areas of expertise include:

We work with clients of all sizes, across all sectors, building tailored teams that bring the flexibility, design insight and engineering expertise each project requires.

We actively manage risk and identify opportunities at key stages to reduce issues before they arise; helping you deliver projects on time and on budget.

Experience tells us that developing a sound client/consultant team leads to a rewarding, motivating, and more successful project and working relationship. We listen to our clients, understand your goals, and challenge the approach when appropriate to help develop workable and innovative designs.

# Agenda

Tech Drop In | Small Dining Room

09:30 - 14:00

### Connecting Construction and Tech for Practical Solutions.

This informal drop-in clinic connects construction professionals with leading Essex tech companies to explore live, practical digital solutions.

Attendees bring operational or workflow challenges and receive real-time guidance on automation, project management, data, AI readiness and carbon reporting. Participants drop in with specific issues or simply explore and learn. No obligation conversations.

&Element is a development consultancy that builds large-scale architecture, dashboards, and SaaS platforms using AI and intelligence augmentation to give people back their time. We work with companies like Samsung, Meta, Philips, and local businesses to optimise workflows and provide real-time data to decision-makers.

OBJECTIVE

Objective is a Essex-based tech partner helping businesses streamline operations through bespoke software, data analytics and AI. Since 1987, we've supported construction companies to improve efficiency, gain real-time insight and unlock greater value from their data and technology investment.

We specialise in working in Parallel with businesses to align Technology with their Business. We are passionate about assisting businesses in realising value from their technology investments, both current and future. Working within the parameters of the existing Technology, not selling new solutions.

Vibe Agency helps businesses to scale by streamlining admin-heavy operational processes. We build custom digital solutions that integrate with existing systems to improve efficiency, data visibility and customer experience. We sponsor Chelmsford FC and support their digital plans.

# Reduce your Carbon Reduce your Costs

Helping the building sector become carbon and cost competitive. Supporting the removal of carbon from products, operations and services. Helping to drive down cost.

- Carbon Footprinting and Verification
- Net Zero Strategy Development
- Carbon Reduction Planning and Execution
- Compliance with Regulations and Frameworks such as SECR, ISSB, CSRD, IFRS, CBAM, PPN 006
- Built on Industry Standards: e.g. Science-based Targets, ISO 14060/64/68, GHGP, PAS 2080
- Cost optimisation - fuel/fleet/waste management
- Energy Management – (ESOS & SECR)
